

# PERGOLA ANTIBES

Bioklimatska pergola sa rotirajućim lamelama  
Bioclimatic pergola with rotating blades

Pergola ANTIBES je dizajnirana u skladu sa savremenim trendovima i potrebama klijenata. Bioklimatska pergola Pruža neprevaziđenu udobnost tokom cele godine uz estetiku koja prati savremen arhitektonski izraz. U zatvorenom položaju lamela pergola ANTIBES je vodonepropusna, a pomoću integrisanog sistema oluka voda se sprovodi kroz stubove van gabarita pergole.

Pergola ANTIBES was designed in accordance with contemporary trends in outdoor living. Our system ANTIBES delivers maximum comfort throughout entire season along with aesthetics compatible with modern architecture. Pergola ANTIBES has total aluminum frame construction with integrated gutters for water drainage. In closed position, blades of our ANTIBES system constitute watertight roof. Blades are rotated by a remote controlled linear actuator installed above the pergola frame. Optional rain sensor provides automatic closure in case of rainfall. Accessories such as sliding glass systems, sun-protection zip-screens or fixed louvers will treat you with extended outdoor time
