

TENDA RIVA

Tenda za staklene krovove
Glass-roofs awning

Tenda RIVA je proizvod predviđen za staklene krovove, zimske vrtove ili verande. Montira se na horizontalne ili nagnute staklene krovne površine. Čvrsta konstrukcija i kvalitetno akrilno platno garantuju trajnost tende. Specijalni sistem zatezanja platna omogućava efikasan rad tende na horizontalnim i nagnutim površinama. Tenda RIVA se pokreće samo na električni pogon.

RIVA is a new product studied for glass roofs, wintergardens or veranda covering. Horizontal or inclined glass roof surfaces, conservatories. A hard-wearing construction and the highest quality fabrics guarantee durability of the awning. A special fabric tensioning system enables effective operation of awnings on horizontal and inclined surfaces. RIVA works only through a motorized system.
