VERONA, Piazza delle Erbe - 1976

I Scolaro è un'azienda nata più di 40 anni fa come antico laboratorio artigianale di ombrelloni DOC. L'ampia gamma di articoli è studiata per il Contract, l'arredo giardino e il settore pubblicitario ed è costituita da ombrelloni in legno e alluminio con palo centrale, palo laterale e con telaio telescopico. La politica aziendale costantemente rivolta alla soddisfazione del cliente finale consente ora alla Scolaro di esportare i propri prodotti in più di 50 Paesi. Alla esperienza e capacità manipolativa aggiunge negli anni sempre maggiori tecnologie per migliorare lo standard qualitativo e da semplice prodotto per riparare dal sole ne ha fatto un elegante strumento per l'arredamento personalizzato. Il design, le nuove soluzioni tecniche e l'abbinamento dei materiali migliori, segnano l'evoluzione e l'utilizzo dell'ombrellone, il tutto garantito da un processo produttivo interamente italiano.

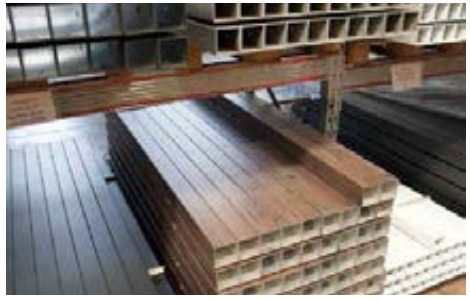
UK The company Scolaro was established 40 years ago and produced artisan wooden parasols. Our wide range of articles is studied for the Contract, the garden furniture and the promotional branch. It includes wooden and aluminium parasols with central pole, side post and telescopic frame.
Our company's policy is constantly seeking to customer satisfaction and allows now to export our products in more 'than 50 countries.
The experience and manipulative skill added over the years more and more technologies to improve the quality standard and a simple product developed to shelter from the sun has become an elegant tool to personalize smartly furnishing.
The design, new technical solutions and the combination of the best materials, mark the evolution and use of the parasol, guaranteed by an entirely Italian production process.

D Die Firma Scolaro wurde vor ueber 40 Jahren gegruendet und stellte urspruenglich handwerksmaessig Qualitaetssonnenschirme her. Unsere umfangreiche Auswahl an Artikel eignet sich fuer Gastro-OH, Gartenmoebel Fachhandel und den Werbebereich und schliesst Mittelmast-, Pendel- sowie Teleskopschirme in sich.
Die Kundenzufriedenheit ist einer unserer prinzipiellen Objektive und hat uns erlaubt nun in ueber 50 Laender zu exportieren.
Unsere Erfahrung und Handfertigkeit haben alle Erwartungen nach einer besseren Technologie und nach einem hohen Qualitaetsstandard erfuellt. Ein einfaches Produkt zum Schutz vor der Sonne, verleiht heute der Einrichtung eine persoehnliche und elegante Note. Das Design, die technischen Verbesserungen, die Kombination hochwertigster Materialien und das italienische Produktionsprozess kennzeichnen die Entwicklung und den Einsatz des Schirmes.

F La maison Scolaro a commencé son activité il y a 40 ans avec la production artisanale de parasols en bois. Notre large gamme de parasols est adaptée à l'hôtellerie, le jardin et le marché publicitaire. Elle comprend des parasols avec mâts centraux, mâts déportés et télescopiques.
La politique de l'entreprise est constamment à la recherche de la satisfaction des clients. La Société SCOLARO exporte ses parasols dans plus de 50 pays. L'expérience et les compétences de fabrication acquises au fil des ans et les nouvelles technologies ont permis d'améliorer la qualité et un produit simple de la protection du soleil est devenu un objet élégant de mobilier de jardin. Le design, les solutions techniques et la combinaison des meilleurs matériaux soulignent l'évolution et l'utilisation du parasol, garantie par un processus de production entièrement italien.

E La empresa SCOLARO, fue fundada hace más de 40 años como laboratorio artesano de parasoles. La amplia gama de productos está estudiada para contract, jardín y el sector publicitario, fabricando parasoles tanto en madera, como en aluminio con mastil central o lateral y con estructura telescopica. La política de la empresa está constantemente dirigida a la satisfacción del cliente final, lo que con el tiempo ha permitido que scolaro exporte su producto a más de 50 países. A la experiencia y capacidad manipuladora, hemos incorporado con los años mayores tecnologías para mejorar la normativa de calidad y hacer de un simple producto para protegerse del sol un instrumento elegante para el interiorismo personalizado. El diseño, las nuevas soluciones técnicas y la combinación de los mejores materiales, marca la evolución y utilización de los parasoles,garantizando que todo el producto es de fabricación íntegramente italiana.

NL Parasolfabrikant SCOLARO startte meer dan 40 jaar geleden met de handmatige fabricage van parasols van hoge kwaliteit. In het uitgebreide assortiment zijn parasols voor zowel gastronomie, tuinmeubelvakhandel als ook voor reclamedoeleinden opgenomen. Parasols zijn, zowel in hout als aluminium, leverbaar als zwevend, met centrale mast en in telescoop uitvoering. Klanttevredenheid is onze bedrijfspolicy. Wij exporteren onze parasols naar meer dan 50 landen. Door onze jarenlange ervaring, opgebouwde kennis en verbeterde technologie zijn wij in staat een hoogwaardig product te fabriceren. Een eenvoudig artikel ter bescherming tegen de zon vraagt tegenwoordig een persoonlijke en elegante uitstraling. Design, nieuwe technische oplossingen in combinatie met hoogwaardige materialen zijn kenmerkend voor de ontwikkeling en het gebruik van Scolaro parasols, waarvan de productie volledig in Italiaanse handen is.



I I nostri articoli sono progettati, sviluppati e prodotti interamente all'interno della nostra azienda con sede in Italia. Particolare cura per la rifinitura e il controllo di qualità sono parte integrante della nostra politica.
Grazie ai materiali impiegati e ai dispositivi tecnici i nostri articoli sono particolarmente robusti e adatti per un uso intenso e professionale. L'utilizzo di tessuti acrilici impermeabili, di legno, acciaio e alluminio trattati ne garantiscono una lunga vita.
La ditta Scolaro presta particolare attenzione alla facilita' di manutenzione e alla disponibilità di componenti di ricambio garantita nel tempo.
Al raggiungimento di tali risultati ha sempre collaborato l'Ombrellificio D'Incà che tuttora si occupa della confezione delle coperture.

UK Our products are designed, developed and manufactured entirely inside our company based in Italy. Special care for finishing and quality control are an integral part of our policy.
Thanks to the materials used and the technical equipment, our items are strong and suitable for heavy and professional employ.
The use of waterproof acrylic fabrics, treated wood, steel and aluminium grant a long life.
Particular attention for an easy maintenance and the availability' of spare parts is guaranteed over time. To the achievement of these results has always cooperated the company Ombrellificio D'Incà, that still takes care of the parasol cover manufacture.

D Unsere Produkte werden in unserem Unternehmen mit Sitz in Italien geplant, enwickelt und produziert. Besondere Sorgfalt fuer Feinbearbeitung und Qualitaetskontrolle sind Bestandteil unserer Politik.
Dank der verwendeten Materialien und der technischen Ausstattung sind unsere Produkte sehr stark und fuer einen gewerblichen Einsatz geeignet.
Die Verwendung wasserfester Acrylstoffe, behandelter Materialien wie Holz, Stahl und Aluminium gewaehrleisten eine lange Lebensdauer. Grossen Wert legen wir auf eine Vereinfachung der Wartung und Erhaeltlichkeit von Ersatzteilen selbst nach vielen Jahren. Diese Ergebnisse konnten auch dank der Zusammenarbeit mit der Firma Ombrellificio D'Incà, die fuer die Produktion der Schirmbezuege zustaendig ist, erzielt werden.

F Nos produits sont conçus, développés et fabriqués entièrement au sein de notre société basée en Italie. Une attention particulière pour la finition et le contrôle de la qualité font partie intégrante de notre politique.
Grâce aux matériaux utilisés et l'équipement technique, nos produits sont résistants et adaptés à un usage intensif et professionnel. L'utilisation de tissus en acrylique imperméables, ainsi que les matériaux bois, acier et aluminium traité, garantissent une longue durée de vie à nos parasols. L'entreprise SCOLARO accorde une attention toute particulière à la facilité d'entretien des parasols et à la disponibilité de pièces de rechange garanties dans le temps. La societé Ombrellificio D'Incà a toujours collaboré à la réalisation des toiles qui contribuent au succès de la qualité de nos parasols.

E Nuestros artículos están diseñados, desarrollados y producidos íntegramente en nuestra fábrica de Italia. Nuestra particular atención al acabado y a los controles de calidad forman parte de nuestra política de empresa.
Gracias a los materiales empleados y a los dispositivos técnicos, nuestros productos son particularmente robustos y se adaptan a un uso intenso y profesional.
La utilización de tejidos acrílicos impermeabilizados, maderas tratadas, acero y aluminio garantizan una larga durabilidad del producto. La firma Scolaro presta particularmente atención al fácil mantenimiento y a la disponibilidad de repuestos durante mucho tiempo.
El logro de estos resultados también se debe a la colaboración de la empresa Parasoles D´Inca, la cual se ocupa de la confección de la cobertura textil.

NL Onze producten worden in onze eigen fabriek in Italië geproduceerd. Extra zorg aan de afwerking en de kwaliteitscontrole zijn een vast onderdeel van ons fabricageproces. Dankzij de gebruikte materialen en de technische uitrusting zijn onze producten zeer sterk en geschikt voor professioneel gebruik. Het gebruik van waterbestendig acryl en behandelde materialen als hout, metaal en aluminium staan borg voor een lange levensduur. Bijzondere zorg besteden wij aan een vereenvoudiging van onderhoud en beschikbaarheid van vervangende onderdelen, ook na vele jaren.
Deze resultaten worden mede gerealiseerd door de jarenlange samenwerking met de firma Ombrellificio D'Incà, doekenleverancier voor onze parasols.

Sail-parasol

Vela

I L'ombrellone Vela ridefinisce il concetto e l'architettura dell'ombra, inedito e fuori dagli schemi. Il design della copertura si evolve lasciandosi ispirare dal mare e sagomare dal vento, ottenendo linee sinuose ed ergonomiche.
Dalla fusione armonica tra un ombrellone e una vela nasce una sinergia tra resistenza dei materiali e leggerezza delle forme. Un oggetto unico per valorizzare il Vostro ambiente esterno.

UK The parasol Vela redefines the concept and architecture of the shadow, unusual and unconventional
The cover design evolves taking inspiration from the sea and shaped by the wind, resulting in sinuous and ergonomic lines.
From the harmonic fusion between a parasol and a sailing a synergy between material strength and lightness of form, takes shape. A unique item to enhance your outdoor environment.

D Der Sonnenschirm Vela definiert den Begriff und die Architektur des Schattens, ungewöhnlich und unkonventionell
Das Design der Bespannung laesst sich vom Meer inspirieren und durch den Wind modeln. Ergebnis sind ergonomische und gewundene Linien. Von der harmonischen Vereinigung zwischen einem Sonnenschirm und einem Segel nimmt eine Synergie zwischen Festigkeit der Materialien und Leichtigkeit der Form Gestalt an. Ein einzigartiger Schirm der die Aussenausstattung aufwertet.

F Le parasol Vela redéfinit le concept et l'architecture de l'ombre, insolite et non conventionnelle
La conception de la couverture évolue en s'inspirant de la mer et façonné par le vent, ce qui entraîne des lignes sinueuses et ergonomique.
De la fusion harmonieuse entre un parasol et une voile né une synergie entre la résistance des matériaux et la légèreté de la forme. Un article unique pour améliorer votre environnement extérieur.

E El Parasol Vela redefine el concepto y la arquitectura de la sombra, nuevo y poco convencional.
El diseño del tejido evoluciona inspirándose en el mar y las formas que toma el viento, consiguiendo líneas sinuosas y ergonómicas.
De la unión armónica entre un parasol y una vela, nace una sinergia entre la resistencia de los materiales y la ligereza de las formas, un objeto único para mejorar su ambiente al aire libre.

NL De parasol VELA geeft het begrip schaduw anders weer, ongewoon en onconventioneel. De vormgever van het doek liet zich inspireren door de zee en de wind. Het resultaat is ergonomisch met strakke lijnen. Door de harmonieuze samenvoeging van een parasol en een zeil ontstaat een synergie tussen stabiliteit van materialen en luchtigheid van de vormgeving.
Een unieke parasol, die een grote bijdrage levert aan de uitstraling van ieder terras.

Galileo Inox New

I Il modello Galileo Retrattile, già molto apprezzato per gli accorgimenti tecnici e per la praticità di utilizzo, è ora disponibile anche con il telaio verniciato a polveri in colore Inox.
Il Galileo Inox si distingue per il design accattivante e moderno.

UK The model Galileo Retractable, much appreciated for the technical and practical use, Is now also available with the frame powder coated in inox grey. The model Galileo Inox stands out for the attractive and modern design.

D Das Modell Galileo Retractable, bisher insbesondere fuer den technischen und praktischen Einsatz geschätzt, ist nun auch mit pulverbeschichtetem Gestell in Farbe Inox grau erhaeltlich.
Attraktives und modernes Design kennzeichnen das Model Galileo Inox.

F Le modèle rétractable Galileo, très apprécié pour l'utilisation technique et pratique, est désormais disponible aussi avec l'armature vernis en couleurs gris inox.
Le model Galileo Inox se distingue par son design attrayant et moderne.

E El modelo galileo retrattile, es muy apreciado por los datos tecnicos y por ser muy practico en su uso, y ahora tambien esta disponible con la extructura recubierta con pintura en polvo en color gris Inox. El modelo Galielo Inox se distingue por su diseño atractivo y moderno.

NL Het model Galileo Retrattile, befaamd vanwege het technische en praktische gebruiksgemak, is nu ook verkrijgbaar in grijs inox geepoxeerde uitvoering.
Het model Galileo Inox opvalt voor het aantrekkelijk en modern design.

Galileo White

I Il modello Galileo Retrattile, già molto apprezzato per gli accorgimenti tecnici e per la praticità di utilizzo, è ora disponibile anche con il telaio verniciato a polveri in colore bianco.
Questa variante rende il Galileo White ancora più elegante e sofisticato.

UK The model Galileo Retractable, much appreciated for the technical and practical use, is now also available with the frame powder coated in white. This variant makes the Galileo White even more elegant and sophisticated.

D Das Modell Galileo Retractable, bisher insbesondere fuer den technischen und praktischen Einsatz geschätzt, ist nun auch mit pulverbeschichtetem Gestell in Farbe weiß erhältlich.
Diese Variante macht Galileo White noch eleganter und raffinierter.

F Le modèle rétractable Galileo, très apprécié pour l'utilisation technique et pratique, est désormais disponible aussi avec l'armature vernis en couleur blanche.
Cette variante rend le Galileo White encore plus élégant et sophistiqué.

E El modelo galileo retrattile, es muy apreciado por los datos tecnicos y por ser muy practico en su uso, y ahora tambien esta disponible con la extructura recubierta con pintura en polvo en color blanco. Esta variante hace al galileo blanco aun mas elegante y sofisticado.

NL Het model Galileo Retrattile, befaamd vanwege het technische en praktische gebruiksgemak, is nu ook verkrijgbaar in wit geëpoxeerde uitvoering. De uitvoering Galileo White is daardoor nog eleganter en chiquer.

urant

Galileo Dark

I Nuovo modello con sistema di apertura retrattile permette la facile chiusura dell'ombrellone anche in presenza di arredo.
Si tratta del migliore sistema presente nel mercato perché Scolaro, nel progettare e sviluppare ha tenuto conto di: apertura e inclinazione facilitata, estetica, molta attenzione nel prevedere eventuale assistenza o facile riparazione anche ad opera dell'utente finale.
Il sistema di inclinazione progettato indipendente dall'apertura e chiusura rende questo modello la migliore soluzione presente nel mercato.

UK New model with opening system close on the support that allows an easy closing of the parasol without moving the furniture.
It's the best system on the market that Scolaro has developed considering: functionality of the system, aesthetics, special attention in foreseeing a possible assistance or easy restore by the final customer.
The inclination system is planned independently from the opening and closing and makes therefore this model the best solution in the market.

D Neues Model mit einziehbarem Oeffnungssystem oberhalb von Tischen und Stuehlen.
Scolaro hat dieses einzigartige System auf dem Markt entwickelt und besondere Beachtung auf folgende Punkte geschenkt: Funktionalitaet des Systems, Aesthetik, spezielle Aufmerksamkeit fuer eventuelle einfache Ersaetze seitens des Endverbrauchers.
Einzigartiges Model auf dem Markt, dank der unabhaengigen Neigung vom Öffnungs- und Schließungssystem.

F Nouveau modèle avec système rétractile au-dessus des tables et chaises.
Il s'agit du meilleur système développé sur le marché par Scolaro en tenant compte: du caractère fonctionnel, de l'esthétique, et d'une attention spéciale pour une éventuelle assistance et réparation de la part de l'utilisateur final.
Le système d'inclinaison conçu indépendamment de l'ouverture et de la fermeture rend ce modèle la meilleure solution sur le marché.

E El nuevo modelo con sistema de apertura retráctil, permite el cierre fácil de la sombrilla, sin mover el mueble.
Este es el mejor sistema del mercado que Scolaro ha desarrollado teniendo en cuenta: Funcionalidad del sistema, Estética, Atención especial al prever una posible asistencia o fácil reparación por el cliente final.
El sistema de inclinación diseñado independientemente del de apertura y cierre , hace que éste modelo sea la mejor solución presente en el mercado.

NL Nieuw systeem voor het openen en sluiten van de zwevende parasol, zonder uw tuinmeubilair daarvoor te moeten verplaatsen. De parasol hoeft nu niet meer verwijderd te worden als u deze niet gebruikt, maar wordt bevestigd aan de mast. Dus geen storende parasol en parasolarm meer boven uw tuinmeubilair als de parasol niet als zodanig gebruikt wordt.
Dit unieke systeem is door Scolaro ontwikkeld, waarbij extra aandacht besteed is aan belangrijke punten zoals: Functionaliteit, Vormgeving, Aan het mogelijk vervangen van onderdelen door de consument is extra aandacht besteed.
Enige in zijn soort op de parasolmarkt dankzij het onafhankelijke open- en sluitsysteem.

Galileo Maxi 4x4

I L'ombrellone a braccio laterale con il sistema di chiusura retrattile è ora disponibile anche nella misura 4x4 mt con la struttura ulteriormente irrobustita.

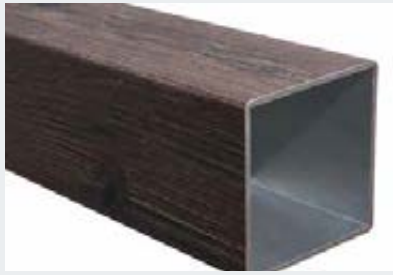
UK The cantilever parasol with retractable closing system is now also available in size 4x4 mt with a further strengthened structure.

D Der Seitenarmschirm mit einziehbarem Schliessungssystem ist nun auch in Groesse 4x4 m erhaeltlich, mit verstaerkter Struktur.

F Le parasol à bras latéral avec système de fermeture rétractable est maintenant également disponible en format 4x4 mt avec la structure renforcée.

E Parasol de brazo lateral y con sistema de cierre ó plegado retráctil. Ahora también disponible en el tamaño de 4 x 4 mts, y con la estructura aún más reforzada.

NL De zwevende parasol, die sluit aan de mast, is nu ook leverbaar in de afmeting 4 x 4 mtr. in een verzwaarde uitvoering.



Giotto Braccio

I Il contrasto di elementi come la finitura color legno Tabacco anticato e i componenti in alluminio color acciaio portano ad un livello superiore la ricerca del lusso. In esclusiva e anteprima Scolaro introduce un nuovo sistema di finitura applicata al sostegno in alluminio con uno speciale rivestimento in colore tabacco anticato che riproduce il legno in 3D.

UK The contrast of elements with wooden tobacco coloured finishing and steel coloured aluminium components lead to an higher level the research of luxury. Scolaro introduces a new finishing applied to the aluminium support with a special coating tobacco antique wood that mimics wood in 3D.

D Der Kontrast der Elemente mit Antique Tobacco Effekt und Alubestandteile Edelstahlfarbig pulverbeschichtet verleihen diesem Model eine besonders luxurioese Note. Scolaro fuehrt als Erster Alumaeste mit speziellem 3D Holzeffekt Antique Tobacco ein.

F Le contraste des éléments tels que la finition couleur bois tabac antique et des composants en aluminium couleur acier, portent la recherche de luxe à un niveaux supérieur. Scolaro a créée une nouvelle finition au niveau du mât en aluminium avec un revêtement spécial effet bois tabac antique en 3D.

E El contraste de elementos como el acabado color madera Tobacco envejecido asi como los componentes de aluminio color acero conducen a un nivel superior en cuanto a la busqueda de lujo. Scolaro introduce un nuevo acabado aplicado sobre el soporte de aluminio con un recubrimiento especial en color Tobacco antiguo que reproduce la madera en 3D.

NL Contrast in materialen: de aluminium mast met tabakskleurige hout-look, de overige aluminium delen [baleinen] geëpoxeerd in een roestvrij staal-look geven dit model een bijzonder luxe uitstraling. Scolaro komt als eerste fabrikant op de markt met een aluminium parasolmast in 3D, die vrijwel niet te onderscheiden is van hout.

Aluminium ribs

Aluminium

NL Combinatie van antraciet grijs aluminium frame en eenvoud in belijning. Een perfecte balans tussen degelijkheid en styling.

Palladio Standard

I Modello storico, presente nella gamma Scolaro da più di 30 anni. La linea classica, ma allo stesso tempo semplice ed essenziale lo rendono adatto a tutti gli ambienti e inattaccabile da tendenze di moda. Prodotto più venduto e diffuso. Ampia gamma e varianti disponibili.

UK Historical model belonging to the Scolaro range since over 30 years. Classic line, but at the same time simply and essential, always in fashion and therefore suitable for all milieux. The most sold item. Wide range of sizes and variants.

D Historisches Model, in der Scolaro Kollektion seit ueber 30 Jahren. Klassisch, einfach, fuer alle Milieux geeignet und stets modern. Meistverkaufter Artikel. Umfangreiche Auswahl an Masse und Varianten.

F Modèle historique, parasol de la collection Scolaro depuis plus de 30 ans. Ligne classique et élégante. Adapté pour tous les milieux. Le modèle le plus vendu. Large gamme avec variantes disponibles.

E Modelo histórico perteneciente a Scolaro desde hace 30 años. Línea clásica, pero al mismo tiempo simple y esencial, siempre moderna y por lo tanto adecuado para todos los ambientes.
Es el artículo más vendido. Con amplia gama de tamaños y variantes.

NL Al meer dan 30 jaar de topper in het SCOLARO assortiment. Klassiek, strak en toch steeds modern. Geschikt voor vele locaties. Het meest verkochte model. Een breed assortiment in vele maten en kleuren.

Leonardo Telescopic

I Il sistema telescopico che permette l'apertura e la chiusura al di sopra di tavoli e sedie abbinato al telaio in alluminio rendono l'ombrellone Leonardo Telescopic resistente, leggero e di facile utilizzo.

UK The telescopic opening system over tables and chairs combined with the employ of an aluminium frame grant strength, lightness and easy employ.

D Das teleskopische Oeffnungssystem oberhalb von Tischen und Stuehlen und das Aluminiumgestell machen aus diesem Schirm eine leichte jedoch starke und fuer einen gewerblichen Einsatz geeignete Version.

F L'ouverture telescopique au-dessus de tables et chaises font de ce article un parasol résistant, léger et apte pour un emploi professionnel.

E El sistema telescópico permite abrir y cerrar el parasol por encima de las mesas siendo de este modo un parasol resistente, ligero y de fácil uso.

NL Dankzij het telescoopsysteem is het ook mogelijk bij grotere afmetingen parasols deze te sluiten boven de tafel. Zeer geschikt voor professioneel gebruik.

Palladio Telescopic

I La versione telescopica, progettata e sviluppata per prima da Scolaro, propone una apertura e chiusura dell'ombrellone facile e funzionale al di sopra di tavoli e sedie.

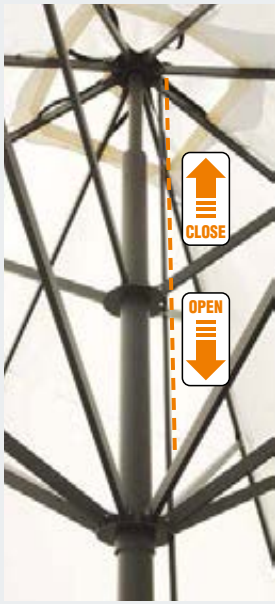
UK The telescopic version Palladio, planed and developed first by Scolaro, offers an easy and functional opening and closing over tables and chairs

D Die Teleskopversion Palladio, die Scolaro als Erster entwickelt und angeboten hat, bietet eine einfache und funktionelle Oeffnung und Schliessung oberhalb von Tischen und Stuehlen an.

F La ligne Palladio télescopique, que Scolaro a projeté et développé par premier, offre une ouverture et fermeture facile et fonctionnel.

E La versión telescópica, planeada y desarrollada por la primera vez de Scolaro, propone una abertura y un cierre de la sombrilla fácil y funcional por encima de mesas y sillas.

NL De telescoopversie, die Scolaro als eerste ontwikkeld heeft, biedt een eenvoudige oplossing om ook grote parasols (Ø 5,00 mtr.) boven de tafel te laten sluiten.



Capri

I La linea Capri presenta l'ombrellone in alluminio progettato per coprire grandi superfici con il minimo ingombro.
La robustezza dei materiali e dei componenti e il sistema di apertura telescopico lo rende di facile utilizzo e ideale per un uso professionale.

UK The aluminium range Capri is projected to cover big surfaces taking the minimum space.
The strength of the materials and components and the telescopic opening system allow an easy and professional employ.

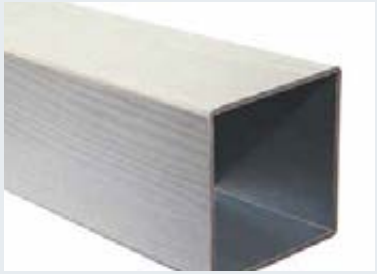
D Die Version Capri aus Aluminium ist fuer grosse Flaechen geeignet.
Die Staerke der Materialien und der Bestandteile und das teleskopische Oeffnungssystem eignen sich insbesondere fuer einen gewerblichen Einsatz.

F La ligne Capri en aluminium est etudiée pour couvrir de grandes surfaces avec un encombrement minimum.
La robustesse des matériaux et des composants, l'ouverture telescopique rendent ce parasol apte pour un emploi facile et professionnel.

E La línea CAPRI en aluminio esta concebido para cubrir grandes superficies ocupando el mínimo espacio. La resistencia de los materiales y de sus componentes, además de un moderno sistema de abertura telescópica, permite a este parasol, tener una utilización sencilla y profesional.

NL CAPRI: een parasol met een aluminium frame en bij uitstek geschikt voor het overkappen van grotere terrassen. De teleskoop uitvoering maakt deze parasol ook zeer geschikt voor professioneel gebruik.

Aluminium



Milano Poker/Double

I Struttura modulabile composta da 2 (Double) o 4 (Poker) ombrelloni ancorati ad un unico sostegno studiata per la copertura di ampie superfici con il minimo ingombro.
Ora disponibile con nuovo sostegno verticale e stecche in alluminio con speciale finitura effetto frassino sbiancato per un design inalterato nel tempo.

UK Structure made of 2 (Double) or 4 (Poker) parasols fixed at the same pole, suitable for big surfaces and minimum encumbrance.
Now available with new vertical aluminium post and ribs with special ash wood finishing for an unalterable design.

D Struktur mit 2 (Double) oder 4 (Poker) Schirmen, die am selben Mast befestigt sind. Raumsparend und fuer grosse Flaechen geeignet.
Nun mit Alumast und -Streben mit spezial-Eschenholzeffekt erhaeltlich, die diesem Model ein unveraenderliches Design verleihen.

F Structure avec 2 (Double) ou 4 (Poker) parasols fixés à un mat. Pour grandes surfaces avec emcombrement minimum.
Maintenant disponible avec nouvelle mat vertical et baleines en aluminium avec effet bois de frene qui permettant un design inchangé.

E Estructura modular compuesta por 2(doble) o 4 (poker) parasoles unidos por un solo mástil, muy adecuado para amplias superficies con poco espacio. **Ahora disponible con nuevo soporte vertical y les varillas fabricadi en aluminio ycon acabado especial en imitacion madera color ceniza blanqueda, que hace que este diseno sea inalterable en el tiempo.**

NL Parasolmast met 2 (Double) of 4 (Poker) parasols. Deze parasols (Double ca. 25 m² en Poker ca. 50 m²) zijn aan 1 mast bevestigd. Zijn daardoor ruimtebesparend en ze er geschikt voor grotere oppervlakten en terrassen.
Nu verkrijgbaar met nieuwe aluminium mast en baleinen met uniek essenhouten uitstraling.

43. **Alu Poker / Double**

I

Struttura robusta composta da 4 ombrelloni (Poker) oppure da 2 ombrelloni (Double).
Telaio in alluminio e componenti in acciaio; verniciato a polveri colore antracite. Accessori in nylon.

UK

Strong structure made of 4 cantilever parasols (Poker) or 2 cantilever parasols (Double).
Frame in coated aluminium and steel components powder coated anthracite grey. Accessories made of nylon.

D

Starke Struktur mit 4 Pendelschirmen (Poker) oder 2 Pendelschirmen (Double)
Gestell aus pulverbeschichtetem Aluminium und Bestandteile aus Stahl Farbe Anthrazitgrau.
Zubehoer aus Nylon.

F

Structure robuste avec 4 parasols (Poker) ou 2 parasols (Double).
Armature en aluminium vernis, composants en acier couleur gris anthracite. Accessoires en nylon.

E

Estructura robusta que se compone de 4 parasoles (Poker) – 2 parasoles (Double). Herrajes: Aluminio y acero color gris antracita. Accesorios de nylon.

NL

Zware mast met 4 (Poker) – 2 (Double) vrijhangende parasols: Mast en baleinen: Grijs geëpoxeerd aluminium. Overige metalen delen: Grijs geëpoxeerd staal.

New System

PATENTED

I Per tutti gli ombrelloni a braccio vengono introdotte le nuove corone centrali in plastica. Il nuovo sistema è stato studiato da Scolaro per aumentare la resistenza e durata, semplificare la manutenzione e migliorare il design. Inoltre è previsto l'aggancio singolo per ogni stecca che ne rende l'eventuale sostituzione semplice, veloce e alla portata dell'utente finale.

UK For all cantilever parasols new plastic crowns will be employed. The new system studied by Scolaro increases the resistance and long lasting, simplifies the maintenance and improves the design. Furthermore each rib is fixed separately. This makes the replacement easy, quick and within everybody's reach.

D Fuer alle Pendelschirme hat die Firma Scolaro neue Plastikkronen entwickelt. Dieses neue System steigert die Widerstandsfaehigkeit und die Dauer, erleichtert die Wartung und verbessert das Design. Alle Streben sind einzeln befestigt. Der Ersatz ist dadurch sehr leicht, schnell und auch seitens des Endverbrauchers ausfuehrbar.

F Pour tous les parasols avec bras deporté la societé Scolaro a développé des nouvelles couronnes en plastique. Ca nouveau système augment la resistance et la durée, simplifié l'entretien et amélioré le design. Toutes les baleines sont accrochés individuellement. Le remplacement est tres facile, rapide et à la portée du utilisateur final.

NL Voor alle zwevende parasols heeft Scolaro een nieuwe kunststof kroon ontwikkeld. Dit nieuwe systeem verhoogt niet alleen de functionaliteit en de duurzaamheid maar vereenvoudigt tevens het gebruik en verfraait de vormgeving. In deze kroon is iedere balein individueel bevestigd. Het vervangen van een balein is daardoor uitermate gemakkelijk, snel en voor iedereen te doen.

Sole Light

I Nuova lampada per ombrellone wireless con luminosità potenziata del doppio.Colore Nero Si adatta a tutti gli ombrelloni con palo da 27 a 50 mm. Adatta anche per ombrelloni a braccio. Illuminazione a LED. Ricaricabile come un cellulare: 2 ore di ricarica – circa 6 e di luce. Fissaggio con illuminazione verso il basso e verso l'alto. Carica batterie incluso. Incluso adattatore per ombrelloni a braccio Scolaro.

UK New battery rechargeable light for parasols with increased brightness twice than the previous version. Colour black. Suitable for parasols with pole diameter from 27 to 50mm. LED lights. Rechargeable: 2 hours recharging – 6 hours light. Down- and up light. AC Adapter included. Adaptation accessory for Scolaro's cantilever parasols included.

D Neue batteriebetriebene/ wireless Beleuchtung fuer Schirme mit gesteigerter Lichtstaerke. Farbe schwarz. Eignet sich fuer alle Schirme. Ab Mastdurchmesser 27 bis 50mm. Auch fuer Pendelschirme geeignet LED Beleuchtung. Wiederaufladbar:2 Stunden Wiederladung – 6 Stunden Beleuchtung. Beleuchtung nach oben oder nach unten moeglich. Aufladegeraet inbegriffen. Anpassungsteil fuer die Befestigung an Scolaro Seitenarmschirme inbegriffen.

F Nouveau éclairage pour parasols avec luminosité potencé. Couleur noir. Fonctionnement par batterie incorporée. Compatible sur mât de 27mm à 50mm. Possible sur parasol avec bras éxcentré.Eclairage LED. Rechargeable en 2 heures pour 6 heures d'autonomie. Éclairage orientable. Chargeur inclus.

E la primera lampara wireless por sombrilla, que se adapta a todos los sombrillas con palo desde 27 a 50 mm. Apta tambien para sombrillas a brazo. Iluminacion LED. Recargable como un mobil. 2 horas de carga-cerca de 6 horas de luz. Se puede fijar con la iluminacion en direcion del suelo o del cielo. El carga bateria está incluido.

NL Snoerloze PARSOLVERLICHTING Geen probleem meer met losse snoeren. Deze snoerloze parasolverlichting past op alle ronde parasolbuizen met een diameter tussen de 27 mm. en 50 mm. en kan zowel naar boven als naar beneden gericht worden. Ook geschikt voor het gebruik op de zwevende parasols uit het Scolaro sortiment. Eenvoudig te bevestigen dankzij een verend klemmechanisme. Het bijpassende oplaadapparaat (110V / 220V) wordt meegeleverd.

USO E MANUTENZIONE

Acciaio Inox

Attenzione:

1. NON USARE i seguenti prodotti su parti in acciaio inox:
   Candeggina o detersivi contenenti candeggina (possono corrodere l'acciaio inox).
   Acido cloridrico o prodotti contenenti cloruro (possono corrodere l'acciaio inox).
2. Sale, calcare o acido (bevande o alimenti) possono scolorare le parti in acciaio inox non prontamente pulite.
3. Prodotti o parti in acciaio inox usati in riva al mare o nell'arredo a bordo piscina richiedono più frequenti pulizie per rimuovere i depositi di cloruro e prevenire la corrosione e l'attacco chimico della superficie esterna.
4. Macchie o ruggine che si presentano sulla superficie di acciaio inox devono essere prontamente pulite.
5. Macchie lasciate a lungo possono divenire permanenti.
6. La ruggine può attaccare chimicamente o scavare l'acciaio inox.

Rimozione di macchie o ruggine:

- Applicare un detersivo non abrasivo specifico per l'acciaio inox.
- Sciacquare abbondantemente con acqua pulita.
- Alla fine asciugare bene per prevenire striature, strofinare nel senso delle fibre.

Metalli verniciati: Ferro – Alluminio

Per la pulizia delle superfici in metallo verniciato utilizzare acqua fredda e detergenti liquidi non abrasivi e non aggressivi. Applicare con panno morbido. È consigliabile, in caso di superfici molto sporche e/o invecchiate, di trattare, dopo la fase di pulizia, con olio di vaselina. Applicare con panno morbido per rivitalizzare le superfici. Nell'eventualità di macchie dovute a depositi calcarei, passare un panno con soluzione di aceto bianco diluito in acqua fredda.
Prima della stagione invernale eseguire una fase di pulizia e quindi trattare superfici, parti mobili e viti con olio di vaselina, utilizzando un panno morbido.
Piccoli graffi o danneggiamenti delle superfici verniciate, dovuti a trasporto, usi impropri o movimentazione, possono essere ritoccati e protetti dalla corrosione con apposita vernice.

Legni: Iroko

Tradizionale legno impiegato nell'arredo da esterni e nel settore nautico.
È un legno duro ad alto contenuto di olio adatto all'uso esterno.
Estremamente longevo, è praticamente inalterabile all'esposizione reiterata agli agenti atmosferici. Se non riceve alcun trattamento protettivo, la superficie prenderà una patina grigio argento, naturale protezione della parte interna del legno.
La tendenza naturale del legno di ingrigire o perdere la luminosità della vernice può essere impedita nella fase iniziale di vita del prodotto. È sufficiente trattare nuovamente le parti in legno con impregnante adatto, facile da trovare nei negozi specializzati.
Si applica con un panno, sulle superfici esposte, una soluzione di acqua e olio incolore.
L'olio deve essere molto diluito. Quando la superficie è asciutta, lucidare con panno.
Macchie superficiali possono essere rimosse intervenendo in modo tempestivo, prima che il legno possa assorbirle in profondità.
Carteggiare la superficie interessata e successivamente lucidare con panno.

La corrispondenza ad alti standard qualitativi e funzionali dei materiali impiegati costituisce la garanzia principale della robustezza e resistenza nel tempo dei prodotti Scolaro. Un comportamento rispettoso di norme di manutenzione ed uso, come specificato di seguito, assicura una durata ancora maggiore.

Le informazioni contenute in questo catalogo o in altri stampati pubblicitari della ditta Scolaro, quali caratteristiche tecniche dei prodotti o dei componenti, dimensioni, schemi di montaggio, colori, ecc., hanno valore meramente indicativo, in ragione delle specifiche tecniche e della evoluzione tecnologica dei prodotti aziendali. Al fine di migliorare la qualità del prodotto, la ditta si riserva il diritto di modificare lo stesso senza alcun preavviso e anche dopo l'accettazione dell'ordine. L'azienda si riserva di apportare modifiche parziali o totali ai prodotti senza preavviso declinando ogni responsabilità su eventuali dati inesatti. Eventuali lievi variazioni di tonalità dei colori e delle finiture rientrano nelle normali caratteristiche dei materiali impiegati. Tutte le differenze sopraindicate non sono tali da modificare significativamente i prodotti stessi e non costituiscono motivo di reso o sostituzione della merce o di contestazione.

Tessuti sintetici: Acrilico – Poliestere

Il tessuto impiegato è trattato antimuffa ed impermeabilizzato per respingere al massimo l'acqua e le macchie mantenendone la traspirabilità. Si raccomanda di seguire le istruzioni seguenti di manutenzione per rendere ottimale la durata del tessuto:
– Togliere periodicamente depositi di polvere, macchie e altro tipo di sporco per evitare che anche dopo la pulizia rimangano tracce visibili.
– È importantissimo assicurarsi che la copertura sia perfettamente asciutta prima di chiudere l'ombrellone.
Durante i mesi di non utilizzo l'ombrellone deve essere riposto in un ambiente asciutto.
Evitare il contatto prolungato con sostanze grasse e/o coloranti che potrebbero venire assorbite dal materiale di rivestimento e dare luogo a macchie permanenti, oltre che deteriorare la struttura del filato. Non usare solventi o detergenti a base di solventi (evitare l'acetone).Utilizzare acqua e detergenti liquidi non abrasivi con PH neutro e incolori. Eventualmente lasciare agire il detergente alcuni minuti. Sciacquare abbondantemente con acqua a temperatura non superiore a 30°C.

Componenti

Le parti in acciaio, la viteria e gli accessori sono trattati antiruggine. Per garantire e assicurare una maggiore durata del prodotto è consigliabile comunque porre l'ombrellone e la base al riparo durante i mesi invernali o durante i periodi di non utilizzo. Durante ogni stagione verificare periodicamente lo stato e la funzionalità dei componenti soprattutto dopo un periodo lungo dove l'ombrellone non sia stato utilizzato.

Avvertenze

Leggere attentamente e conservare le istruzioni di montaggio e il manuale d'uso.
La base va zavorrata con il peso indicato. L'insufficienza di peso sulla base compromette seriamente la stabilità dell'ombrellone.
In caso di vento chiudere sempre l'ombrellone e rimuoverlo dalla struttura. Non lasciare mai l'ombrellone incustodito aperto. Improvvisi colpi di vento possono danneggiare o rovesciare l'ombrellone.
Ricordare sempre che l'ombrellone non è una struttura fissa.
La ditta Scolaro non potrà essere ritenuta responsabile per danni ai prodotti forniti, cose o persone derivanti da un utilizzo scorretto e dal mancato rispetto delle istruzioni e direttive su riportate.

Uso Prodotti

Prima di iniziare la manovra di apertura accertarsi che il telo dell'ombrellone non sia impigliato nelle stecche interne.
Per aprire o chiudere gli ombrelloni girare le manovelle nel senso indicato dalle frecce e dalle diciture "apre" o "chiude": errate manovre possono rompere la corda o il meccanismo.
Non forzare mai le funi o le manovelle: se c'è un impedimento accertarsi della sua origine e rimuovere l'eventuale causa.
Componenti in legno: applicare almeno una volta ogni anno un impregnante.
Corde e parti meccaniche: trattare con olio di vaselina una volta ogni anno prima della stagione invernale. Chiudere gli ombrelloni in presenza di avverse condizioni metereologiche quali vento e pioggia di forte intensità.
Gli ombrelloni Scolaro sono associabili a specifici basamenti per il fissaggio a terra.
Se si sceglie di posizionarli solo tramite zavorra si certifica la loro idoneità ad un uso normale in condizioni di vento moderato.
Nella tabella dedicata vengono riportate le indicazioni sui pesi minimi delle zavorre.
La fase di installazione dell'ombrellone e la sua gestione è responsabilità esclusiva del Cliente.

Garanzia

I prodotti Scolaro sono garantiti per 2 anni da:
-difetti strutturali non dovuto ad suo improprio o mancata manutenzione
-ruggine invasiva non derivante da graffi o abrasioni da uso e non asportabile con normale pulizia e manutenzione.
La garanzia é limitata a 1 anno per i meccanismi di apertura a manovella.
Sono esclusi dalla garanzia danni al tessuto come tagli ed abrasioni non rilevati al momento della consegna o derivanti da uso improprio.
Per avvalersi della garanzia, è necessario presentare l'articolo difettoso o foto del prodotto.
Sono richiesti anche copia della fattura o scontrino. Scolaro declina ogni responsabilità per danni causati a cose o a persone derivanti da uso non corretto del prodotto.
La garanzia prevede la fornitura di pezzi di ricambio o la sostituzione del prodotto dove necessario.
La garanzia non contempla l'intervento in loco o altri costi sostenuti per il mancato uso del prodotto.

USE AND MAINTENANCE

Stainless steel

Attention:

1. DO NOT USE THE FOLLOWING PRODUCTS on any parts made of stainless steel:
   Chlorine bleach or detergents containing bleach (they can corrode stainless steel).
   Hydrochloric acid or products containing chlorides (they can corrode stainless steel).
2. Salt, limestone or acids (drinks and food) may discolour parts made of stainless steel if nor cleaned promptly.
3. Products or parts made of stainless steel used near the seaside or for the interior decoration of swimming pools require more frequent cleaning in order to remove chlorites deposited on them and to prevent corrosion and chemical deterioration of the external surfaces.
4. Stains or rust noted on stainless steel surfaces must be cleaned promptly.
5. Stains left in place for long periods may become permanent.
6. Rust may cause chemical reactions or corrode stainless steel.

To remove stains or rust:

- Apply a specific non-abrasive detergent or polish for stainless steel.
- Rinse thoroughly with clean water.
- Lastly, dry thoroughly in order to prevent streaks from occurring, rubbing in the sense of the fibres.

Varnished metals: Iron and Aluminium

To clean surfaces in varnished metals, use cold water and non-abrasive or aggressive liquid detergents.
Apply with a soft cloth. In the case of very dirty and/or aged surfaces, after cleaning, it is advisable to treat them with liquid paraffin. Apply with a soft cloth to revitalize the surfaces. In the event of stains caused by lime deposits on varnishes of coarse structure (eg. antique iron and indian brown) clean them with a cloth and a solution of white wine vinegar diluted in cold water. Before winter, carry out the cleaning phase and then treat the surfaces, moving parts and screws with liquid paraffin, using a soft cloth. Small scratches or damage to the varnished surfaces due to transportation, improper use or handling can be retouched and protected from corrosion with special varnishes.

Wood: Iroko

Traditional wood employed for outdoor furniture and the marine industry. Iroko is a hardwood with a high oil content, suitable for external use. Extremely long-lasting. It is practically unalterable to repeated exposure to atmospheric factors. If not treated, the surface takes a silver-grey coating which is the natural protection from inside the wood, considered an essential part of Iroko's charm.
The natural tendency of wood to turn gray or lose the brightness of the paint can be prevented in the early stages of the product life. The parasol can be restored by a new treatment with proper products easy to find in specialized shops.
It's necessary to apply a solution of water and colourless oil, to exposed surfaces with a cloth. The oil must be highly diluted. When the surface is dry, polish with a cloth. Superficial stains can be removed by intervening in time, before the wood can fully absorb them. Gently sand the surface in question and then polish with a rough cloth.

The connection between the high qualitative and functional standards of the materials used, constitutes the main guarantee of the sturdiness and the resistance of the company's products over time.Respecting the rules of maintenance and use, specified as follows, will ensure the success of these objects, which were devised with Scolaro quality, to last a long time.

The information contained in this brochures or other Scolaro's advertisements prints, such as product specifications or components, dimensions, assembling instruction, colours, etc.., are purely indicative, because of the technical specifications and the technological evolution of the company's products. In order to improve the quality of the product, the company reserves the right to change the same without prior notice and even after acceptance of the order. The company reserves the right to make partial or complete changes to the products without prior notice and declines any responsibility for inaccurate data. Any colour differences and changes of finishing have to be considered normal characteristics of the materials used. These differences do not significantly change the products and aren't reason for return or replacement of the goods or dispute.

Synthetic fabrics: Acryl and Polyester

The fabric is waterproof and anti mould treated to reject water, spots and grant transpiration. Please follow our maintenance instruction to grant the long lasting of the fabric:
- Remove often dust deposits, spots and any type of dirt in order to avoid trails after cleaning.
- It's very important to close the parasol only when it is perfectly dry. During the winter and when the parasol is not employed, it has to be stored in dry environment.
Avoid prolonged contact with oily substances and/or dyes that could be absorbed by the covering material in PVC and cause permanent stains, in addition to damaging the structure of the thread. Do not use solvents or solvent-based detergents (avoid acetone).
Use water and non-abrasive, colourless liquid detergents with a neutral PH. Let the detergent act for a few minutes. Rinse well with water no warmer than 30°C.

Components

The steel components, screws and accessories are anti rust treated. Anyway for a long lasting of the parasol, during the winter and when the it is not employed, the parasol has to be stored in dry environment.
During every season it is necessary to check the functionality of all components, especially after a long period of non-employ.
The company Scolaro is at your disposal for technical assistance.

Directions

- Before use, directions and assembling instructions, which are inside the package, have to be kept and read carefully .
- The base has to be ballasted. An insufficient weight will seriously compromise the stability of the parasol.
- Always remove crank when not in use and keep out of reach of children.
- To avoid damage or personal injury, parasol must be closed and removed from the support when unattended and/or in windy conditions.
Remember always that the parasol is not a fixed construction.
The company Scolaro cannot be held responsible for damages to goods supplied, or injury resulting from improper use and failure to follow instruction and guidelines given on.

Product Employ

Before starting to open the umbrella, make sure that the fabric has not got caught in the internal ribs. To open or close the umbrella, turn the handle in the direction indicated by the arrows and the works "Open" or "Close". Incorrect operation could tear the string or damage the mechanism. Never force the ropes or handles. If they get stuck, check why this has happened and eliminate the possible cause.
Wooden parts: apply a wax-based wood-stainer at least once a year before the winter season.
Close the umbrella when the weather conditions are unsuitable, i.e. strong wind or heavy rain.
Scolaro umbrellas can be combined with special bases developed for the ground fixing.
If it is decided to position a Scolaro umbrella using ballast only, their suitability for use in conditions of moderate wind is certified.
In the specific table the minimum ballast weights are indicated.
The Customer is the sole party responsible for installing and managing the umbrella.

Warranty

The products Scolaro are warrantied for 2 years against:
-structural faults not resulting from improper use or lack maintenance.
-invasive corrosion not produced by scratches or abrasions from use not removable through normal cleaning and maintenance
The mechanism with handle for the opening are warrantied for 1 year.
Any damage to the fabric such as cuts and abrasions not found put upon delivery or resulting from improper use shall be excluded. To take advantage of the warranty the faulty item must be shown or pictures must be forwarded, together with the invoice or receipt.
Scolaro declines any liability for any damage to properties or individuals deriving from an improper use of the product. The warranty includes the supply of spare parts or the replacement of the product if necessary. The warranty does not include the repair on-site or the refund of costs incurred for non-use of the product.

I

Queste tabelle sono indicative e prevedono che il pavimento o il terreno di appoggio sia perfettamente piano e regolare. Gli ombrelloni e i rispettivi componenti delle basi devono essere assemblati correttamente rispettando le istruzioni di montaggio. La stabilità degli ombrelloni può variare nel caso di condizioni atmosferiche particolari. L'utilizzatore finale è responsabile del corretto uso dell'ombrellone. Nessuna rivalsa può essere fatta sul produttore.

UK

This schedule considers statics calculation and foresees that the floor where the parasol has to be positioned is perfectly flat and regular. The parasols and components have to be assembled correctly and respecting the assembly instruction. The schedule has to be considered indicative because many variables that depend from the area of employ and position of the parasols are not foreseeable. No rights can be derived from this. The use of a parasol is always on your own responsibility.

D

Diese Aufstellung beinhaltet statistische Kalkulationen und sieht vor, dass der Schirm auf einem ebenen und regelmaessigen Boden positioniert wird. Der Schirm und die Bestandteile des Staenders muessen gemaess Anbauanleitungen montiert werden. Die Stabilitaet der Schirme kann auf Grund besonderer klimatischen Konditionen aendern. Der Endbenutzer ist fuer die ordnungsgemaesse Verwendung des Schirmes verantwortlich.

F

Ces tableaux sont à titre indicatif et ils prévoient que la surface sur laquelle est implanté le parasol soit parfaitement plane et lisse. Les parasols et les éléments respectifs des bases doivent être assemblés en respectant scrupuleusement les instructions de montage. La stabilité des parasols peut varier dans le cas de conditions atmosphériques particulières et dépend du lieu et de l'utilisation propre à chaque utilisateur (le parasol doit être fermé en cas de vent fort et/ou de mauvaises conditions météorologiques).

E

Estos cuadros son indicativos y requieren que el suelo o el apoyo de tierra sea perfectamente plano y liso. El parasol y los respectivos componentes de la base deben ser montados correctamente respetando las instrucciones. La estabilidad de los parasoles puede variar según las condiciones atmosféricas.

NL

This schedule considers statics calculation and foresees that the floor where the parasol has to be positioned is perfectly flat and regular. The parasols and components have to assembled correctly and respecting the assembly instruction. The schedule has to be considered indicative because many variables that depend from the area of employ and position of the parasols are not foreseeable.
